

Branding & Identity Guidelines

1SKY BRAND INTRODUCTION

1Sky is an open source campaign, and we encourage the creative use of the 1Sky brand for the purposes of furthering this collaborative campaign and national movement for bold solutions. In order to provide consistency and clarity throughout all collaborative efforts, we are outlining here some guidelines (logo usage, type, and color) to ensure the effective use of the 1Sky brand in a variety of circumstances and media.

THE OFFICIAL **1SKY** LOGO

The 1Sky logo consists of the “1Sky” wordmark, and the “1 CLIMATE. 1 FUTURE. 1 CHANCE.” tagline, contained by a thin blue rule line. This is the only approved arrangement of these elements, and should be used as such at all times.

1SKY LOGO USAGE

APPROVED GRAYSCALE VERSION

For print documents that will be reproduced in black and white, please use the approved grayscale version of the 1Sky logo. This ensures adequate contrast, so the logo will stay readable, even after running through several generations of being faxed.

MINIMUM SIZE & CLEARANCE SPACE

Indicated below are the minimum width that the 1Sky logo can be scaled down to:

Clear space refers to the space around the logo in which no type, graphics or objects should enter. The amount of clear space should be equal to the width of the rectangle that contains the "1" in the logo (see diagram below). This ensures the clear space scales up or down along with the logo.

1SKY LOGO USAGE *(continued)*

CO-BRANDING THE 1SKY LOGO

When co-branding the 1Sky logo with partner logos, clear space, alignment and scale should be taken into account.

INCORRECT LOGO USAGE

Below are other guidelines that should be followed when using the 1Sky logo:

X Never stretch the logo either horizontally or vertically.

X Never alter the position of the tagline in relation to the logo.

X Always preserve the white area within the logo at all times. Do not extend background color to within the logo area.

1SKY BRAND COLORS

The primary colors are supported by a rich set of secondary colors. This palette can be used in a variety of ways, evoking different moods and responses. Each color can be tinted lighter to achieve a muted effect for serious reports or at its full intensity for bolder messaging.
